SYNTHETIC TEST HANDOUT - NOT AN OFFICIAL TEXTBOOK

Topic: Comparing fractions | Grade 6 | Page 1

Planning duration: 45 minutes.

Local lesson objective: compare two positive fractions using a common denominator.

Example: 1/2 = 3/6; 2/3 = 4/6. Therefore 1/2 < 2/3.

Practice: compare 3/4 and 5/8. Explain your method.

Extension: find a fraction strictly between 1/2 and 2/3.

Available resources: printed sheets; no Internet; no student devices.

No official NLS codes or curriculum quotations are supplied.
